Under “Requirement Line Description” column:

List the catalog subject, course number and official title for specific required coursework (e.g. ASTR 250 Fundamentals of Astronomy). Add a generic title/place holder for requirements with more than one course option (e.g. Upper Division Major Elective, General Elective, Minor Course, First Semester Chemistry, etc.). These generic line titles must match your advisement reports. **Use the same terminology (Math, Second Language, GE Tier 1, GE Tier 2) when listing generic GE/Foundations coursework.**
