

Reverse Transfer Program: Opt-In/Opt-Out

This form allows you, the student, to opt in or opt out of the Reverse Transfer initiative at The University of Arizona.

We would like to offer you the opportunity at no cost to you to participate in The University of Arizona's Reverse Transfer initiative. Reverse transfer refers to a situation in which students have transferred to The University of Arizona from a two-year institution without earning an associate's degree. Credits earned from combined enrollment at The University of Arizona and an Arizona community college are transferred back to the two-year institution for evaluation and eligibility for awarding of an associate degree. Once your community college reviews the transcript, they will notify you if you are awarded a degree and contact you for your mailing address to send it to you. Students eligible for Arizona Reverse Transfer must have completed at least 36 units from a community college in Arizona and a minimum of 60 units between their community college and the UA.

We respect your privacy and require your opt-in or opt-out decision by completing the form below.

- By opting in, you agree to let The University of Arizona share your academic records with other previously attended academic institutions for the purposes of credit evaluation to determine your eligibility to receive an associate's degree.
- By opting out, your FERPA-protected academic records will not be shared with other academic institutions you attended for the purposes of credit evaluation to determine your eligibility to receive an associate's degree.

Please indicate your selection by initialing one of the options below and filling in your name, student ID number, and the current date. Once the form is completed, please turn this form to the Transfer Student Center (SUMC, Suite 402) at The University of Arizona.
