I. Terminology

- ADVIP/AAR-Academic Advisement Report
- ABOR- Arizona Board of Regents
- College Academic Administrators Council (CAAC)—this body is composed of the associate deans of the academic colleges.
- Curricular Affairs – office responsible for approval of new programs and updates to existing programs. In addition, the staff is available to answer questions and help departments through the approval process.
- Pre-schedule updates – courses used to pre-schedule new freshmen during freshmen orientation.
- UGC – Undergraduate Council—this body is composed of college representatives.
- UITS – University Information Technology Services
- UWGEC – University Wide General Education Committee

II. Approval Flowchart

FLOWCHART FOR DEGREE REQUIREMENT/ADVIP UPDATES

1. Academic unit submits ADVIP and Degree Search checklists to Curricular Affairs by November 17.
2. Curricular Affairs reviews and clarifies updates.
3. Curricular Affairs approves updates?
   - Yes: Approved updates incorporated on ADVIPs and emailed to academic unit for review and approval. Department response required within 2 weeks of email.
   - No: Proceed to next step.
4. Approved updates incorporated on ADVIPs and emailed to academic unit for review and approval. Department response required within 2 weeks of email.
5. Academic unit approves updates?
   - Yes: Updates applied in UAccess and posted to Degree Search and 2018-19 UA General Catalog.
   - No: Revisit previous steps.
III. Making Degree Requirement Updates

Important Notes:

Updates must involve discussions between faculty and support staff (i.e. advisors, program coordinators, etc.) to ensure students’ needs and programmatic learning outcomes are primary considerations. Academic units are encouraged to allow time to go through all internal approval processes within their unit along with any college curriculum committees or processes.

Curricular Affairs is responsible for approval of all curricular updates. Curricular Affairs staff members will check curricular updates to ensure they follow academic policy and will work with department representative(s) on updates that need revisions.

Submissions received after the established deadline may not be processed. Refer to relevant deadlines noted in this guide.

Methods for updating curricular information is as follows:

Degree Requirements/AAR/ADVIP – submitted through UA Curriculum Update module in UAccess. Access to module requires 1-1 training. Refer to “UAaccess Curriculum Updates Guide” and contact Stephanie Carlson (scarlson@email.arizona.edu) for further information regarding training. Additional approval is required for significant changes to degree requirements, refer to section VII of this guide.

Degree Search – use “Degree Search Updates Spreadsheet” to update Degree Search sequences (http://www.degreesearch.arizona.edu). Refer to “Degree Search Updates Guide” for instructions on updating and submitting the Degree Search spreadsheet.

Pre-scheduling – department-approved representative(s) will be sent pre-schedule information from Office of Admissions and UITS. Updates to pre-schedules must be submitted to degreerqmtupdates@list.arizona.edu. Updates to pre-schedules may require Curricular Affairs approval.

IV. UA General Catalog as a Contract

The UA General Catalog is the University's primary, comprehensive single source of departmental, college and university-wide information related to academic programs. Courses, degree programs, and policies that govern progress towards completion of a degree are described in the UA General Catalog. Students are responsible for knowing and understanding the contents of the catalog they are following and are strongly encouraged to read the UA’s student responsibility policy.

Degree requirements within the UA General Catalog are a contract between the university and the student. All degree requirements for a student to graduate must be listed in the UA General Catalog under the majors and/or minors sections and must go through the approval process. Information about degree requirements found on department/college websites, Degree Search, major checklists, etc., must match degree requirements listed in the UA General Catalog, as required by the Higher Learning Commission, our regional accreditor.
V. **Retroactive Changes**

Since the *UA General Catalog* is a contract, departments and colleges should not request changes to previous catalog years unless it is to the benefit of the student. Consider the following examples:

Acceptable Retroactive Changes – department has created new courses which may be considered as options for a student in their major. The course creations could be due to cancellation of previous options or simply new offerings the department would like to provide. In this case, a change to previous catalogs may be permitted.

Unacceptable Retroactive Changes – department wants to increase the number of required courses in a major. This retroactive change would not be permitted, as this would adversely impact students by requiring additional coursework that was not required when the student began the program.

Other examples of items which may not be retroactively changed for previous catalogs: increasing a major GPA or adding a new requirement line on the Advisement Report; and increases of either additional courses or additional requirements.

If a department is requesting updates to a previous catalog and those changes would be considered acceptable:

1. add acceptable retroactive change request(s) as part of AAR/ADVIP updates through the UAccess Curriculum Update module or

2. contact Stephanie Carlson (scarlson@email.arizona.edu) if retroactive changes needed are after AAR/ADVIP updates have been made/submitted.

Approved retroactive change requests will be processed as time permits. Updates to the upcoming catalog will take precedence over changes to previous catalogs.

*Note: It is imperative that departments review submitted changes, approved updates, and final products to ensure they are correct.*

VI. **New Courses**

Deadlines to submit course additions/modifications through the UAccess Student Course Management process are found [here](#). A new Academic Advisement Report and Degree Search plan cannot be completed until all required and elective coursework has been fully approved and entered in the course catalog. To ensure accuracy, all new courses submitted for inclusion in the Academic Advisement Report and Degree Search for the upcoming catalog must be submitted to Room and Course Scheduling through UAccess Student Course Management system by December 1. Courses not submitted by December 1 cannot be included in the degree requirements for the upcoming catalog.

*Note: Information regarding course fees including deadlines and process for submitting requests can be found [here](#).*
VII. **New Subplans**

Departments that wish to propose new subplans (also referred to as emphases, concentrations, subspecialties, or specializations) for inclusion in the upcoming catalog must submit the [Undergraduate Subplan Request Form](http://azregents.asu.edu/rrc/Policy%20Manual/2-221Academic%20Degree%20Programs.pdf) and required supporting documentation to Martin Marquez (martinmarquez@email.arizona.edu) by October 24.

ABOR policy regarding subplans is available at:

http://azregents.asu.edu/rrc/Policy%20Manual/2-221Academic%20Degree%20Programs.pdf

VIII. **Additional Approvals**

Several requests for updates require additional approval beyond Curricular Affairs. Below are examples requiring additional approvals. Departments with the following changes should complete the noted request form and submit to Martin Marquez by the due date noted. Martin will work with the department(s) and faculty councils to place the change requests on their agendas.

**PLEASE NOTE:** The table below assumes departments are making a single type of change. If more than one change is requested, and at least one of the changes requires submission of the Request for Curricular Changes Form, then departments must submit all requested changes on the Request for Curricular Changes Form. **DEPARTMENTS THAT ARE REQUESTING CHANGES SHOULD ALSO SUBMIT THESE CHANGES ON THEIR AAR/ADVIP AND DEGREE SEARCH UPDATES.**

IX. **Review and Approval Process**

Curricular Affairs will review updates in the order they are received and submit the approvals to the appropriate UITS staff.

As Degree Search is a planning tool to assist students and advisors, the data used to generate the information in it must match the data within the Academic Advisement Report. Curricular Affairs will contact the department regarding any discrepancies.

Pre-schedule updates will also be submitted through the same process. Departments are not permitted to list specific tier 1 courses on their pre-scheduling rank order. In other words, departments are permitted to list INDV 150, but they must not list PSY 150A1 on their pre-scheduling requests. Curricular Affairs and Orientation staff will work jointly to make sure
information is sent to appropriate personnel. Curricular Affairs staff will review courses for pre-scheduling to ensure alignment with stated/required major curriculum.

Departments will have 2 weeks from the notification of AAR/ADVIP update completions to verify the information is correct. If no approval is received by the end of that 2 week period, the information is considered correct, approved, and is uploaded to the UA General Catalog. Departments are required to check the catalog for accuracy once AAR/ADVIP updates have been uploaded.

X. **Contact for Questions and Assistance**

Contact Stephanie Carlson regarding questions about AAR/ADVIP updates (scarlson@email.arizona.edu)
Contact Martin Marquez regarding questions about the “Additional Approvals” processes (martinmarquez@email.arizona.edu)
